

**SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION
MINORITY FELLOWSHIP PROGRAM
American Nurses Association**

**4th Annual Intensive Summer Institute (ISI)
July 19 – 22, 2007
Silver Spring, MD**

DRAFT AGENDA*

Objectives

At the end of this ISI, the participant will be able to:

1. Discuss the critical roles and responsibilities of selected mental health and substance abuse agencies from a national perspective and the importance of networking;
2. Discuss the essential contributions of congress persons and their staff in advancing science and supporting substance abuse, mental health and ethnic minority health;
3. Understand and appreciate the contributions at SAMHSA;
4. Demonstrate familiarity with AMOS which is an abbreviation for Analysis of Moment Structures. AMOS implements the general approach to data analysis known as structural equation modeling (SEM), also it's known as analysis of covariance structures, or causal modeling;
5. Gain a pithy sense of appreciation for and understanding of the history and current health status of Alaska Natives and American Indians through the medium of the American Indian Museum, a structure of the Smithsonian Institute;
6. Appreciate the research and contributions of Fellow colleagues.
