Comments:

- Dr. Yarandi is able to present the research methods in an understandable manner allowing for the Fellows to ask questions for clarity as needed, and then to phrase responses in a manner to meet a variety of individuals at differing levels of research methods knowledge. (Beginner to experienced, all learn something from him.)
- Great review; I appreciate feedback and suggestions on how to improve our PhD studies
- Dr. Yarandi was very helpful and reassuring about upcoming stats courses
- Excellent information; I feel more confident in my statistics just knowing that you will be there to help
- Clear and understandable information; always very useful!
